# How-to: Start ProPresenter

Introduction

All the visuals displayed on the main screen are controlled using the ProPresenter software, run using the iMac on the AV desk.

How to

Log in to the iMac by clicking on the 'AV' user and entering the password. ProPresenter can be started by clicking on the ProPresenter icon on the Dock at the bottom of the screen.

Note that ProPresenter sometimes stops if the ProPresenter window is minimised. Avoid minimising the ProPresenter window. If this does occur, you may need to quit ProPresenter by clicking on the ProPresenter menu at the top left of the screen and selecting 'Quit'. You may then restart the ProPresenter application by clicking on its icon on the Dock.
